TECHNICAL SKILLS

Languages: HTML, JavaScript, CSS/SCSS

Frameworks: React

Other: Git, GitHub, TypeScript, Tailwind, Bootstrap, Kanban

WEB DEVELOPMENT EXPERIENCE

UI Developer Apprentice at Viget | Sep. 2022 - Dec. 2022

A 14 week program at an established digital agency designed to provide apprentices with the opportunity to learn, grow, and gain experience by pairing with a senior developer and working with major national clients.

- Collaborated with front-end developers to build a website for Aylo Health, which included creating components, referencing Figma designs for component styling, installing and setting up plugins, and creating documentation of the plugin setup process.
- Utilized GitHub to work on and manage issues for the National Park Foundation and Human Rights Campaign, which included bug fixes, feature implementations, and styling changes.
- Participated in weekly project standup meetings to share progress and provide updates on current tasks, estimate and scope future tasks, and establish goals for the coming week.
- Paired with a senior developer to identify growth areas, solicit feedback, and build and strengthen technical and cross-disciplinary skills, including collaborating with developers, project managers, and designers, performing code reviews and giving feedback, and expanding git knowledge and workflow.
- Participated in client meetings to build a deeper understanding of client relationship management and project planning.
- Gained familiarity working with Craft CMS, Jira/Bitbucket, DDEV, Docker, Rest APIs, Netlify, and Vercel.

Udemy | Aug. 2020 - June 2021

Bootcamp: The Result-Oriented Web Developer Course (HTML, CSS, JavaScript)

Independent Courses:

SASS: The Complete SASS Course (CSS Preprocessor) (Variables, extends, mixins, nesting)

React JS: Learn React JS From Scratch with Hands-On Projects (Setting state, passing props, reusability)

ADDITIONAL EXPERIENCE

Fulfillment Manager at Unrivaled Brands (Formerly LTRMN) | Jan. 2019 - July 2020

- Implemented processes to maximize efficiency – managed the creation of a custom application that reduced the amount of time needed to fulfill an order by up to 50%.
- Monitored, collected, and reported Key Performance Indicators during weekly meetings with upper management and stakeholders.

Fulfillment Lead at Unrivaled Brands (Formerly LTRMN) | Oct. 2018 - Jan. 2019

- Transitioned the department from creating outgoing manifests by hand to using RFID scanners to scan in each RFID number, resulting in a decrease in monthly error rate from 4% to 1% or less.

EDUCATION

Portland State University | 2013

Bachelor of Science in Community Health Education
