

# MIKE PURCELLA

(503) 680-5027 | mjpurcella@gmail.com | mikepurcella.com | Portland, Oregon

Motivated Junior Front-end Web Developer looking to contribute to a highly skilled team.  
Excited to learn and expand my skills as a developer to deliver impactful products.

## EDUCATION

### ○ Udemy | Aug. 2020 - June 2021

*React JS: Learn React JS From Scratch with Hands-On Projects*

- Initializing and setting states, passing props, creating reusable components, and utilizing React Router Dom to implement dynamic routing.

*SASS - The Complete SASS Course (CSS Preprocessor)*

- Creating variables, extends, and mixins, and utilizing nesting to create easier styling and CSS readability.

*The Result-Oriented Web Developer Course - BOOTCAMP*

- Utilizing HTML, CSS, Bootstrap, JavaScript, jQuery, and Git.

### ○ Portland Community College | 2015 - 2016

*Nationally Registered Emergency Medical Technician*

### ○ Portland State University | 2011 - 2013

*Bachelor of Science in Community Health Education*

## TECHNICAL SKILLS

HTML | CSS | Sass/SCSS | Bootstrap | JavaScript | jQuery | React | Git

## CAREER OVERVIEW

### ○ Fulfillment Manager at Unrivaled Brands (Formerly LTRMN) | Jan. 2019 - July 2020

Led the fulfillment department in building and maintaining client relationships, adhering to strict compliance regulations, and exceeding productivity goals.

- Implemented processes to maximize efficiency – including creating and troubleshooting a custom application that reduced the amount of time needed to fulfill an order by up to 50%.
- Increased the order delivery rate from ~20% to over 90% through the creation of delivery schedules and delivery routes.
- Monitored, collected, and reported Key Performance Indicators during weekly meetings with upper management and stakeholders.

### ○ Fulfillment Lead at Unrivaled Brands (Formerly LTRMN) | Oct. 2018 - Jan. 2019

Led a team of Fulfillment Associates in ensuring that all orders were picked, packed, and ready for delivery the following day, while also working closely with sales representatives and clients to resolve any discrepancies with their orders.

- Transitioned the department from creating outgoing manifests by hand to using RFID scanners to scan in each RFID number, resulting in a decrease in monthly error rate from 4% to 1% or less.
- Worked closely with sales representatives and customers to ensure mandatory compliance requirements were met when fulfilling and transporting orders.
- Created department training manuals and Standard Operating Procedures.
